PROFESSIONAL EXPERIENCE

Monitor Deloitte

Strategy Consultant

Riyadh, Saudi Arabia

Feb 2024 – Present

- ♦ **Successfully led high-stakes budget request of \$69MM for a national cybersecurity academy**, leading to securing phase 2 of the project to develop the academy's Strategy and Target Operating Model
- ♦ **Advised on \$150MM federation-subsidiary separation for a golf organization**; developed comprehensive service groupings, to be used in a service level agreement, through benchmarking 4 sports federations with wholly owned subsidiaries
- ♦ **Defined vision and Target Operating Model for the Customer AI department of a mega project**; enabled company-wide customer-facing AI by defining the TOM (delivery model, stakeholders, capabilities, processes, organization, and AI architecture)
- ♦ **Developed 5-year corporate strategy for a Public Health Authority** following mandate expansion; developed strategy incl. KPIs, initiatives and implementation roadmap by facilitating C-suite workshops and presenting directly to CEO advisors
- ♦ **Designed healthcare services pricing methodology for a Department of Health**; independently led the workstream to develop a National Efficient Price while ensuring the right intended economic incentives for market participants (healthcare and insurance providers) by incorporating cost analysis methodology by collaborating with SMEs. Developed a 5-year transitional plan to ease the transition
- ♦ **Firm development**: Developed a thought leadership report on the Saudi esports market. Created a global PowerPoint template that was adopted globally across Monitor Deloitte, receiving recognition from the Monitor Deloitte Global CEO

Gupta Strategists

Strategy Consultant

Doha, Qatar

Sept 2022 – Nov 2023

- ♦ **Advised a GCC Ministry of Public Health on national healthcare redesign within \$10B+ healthcare system**; developed costing and pricing frameworks, led knowledge transfer to ministry personnel, and coordinated with IT contractors for implementation
- ♦ **Developed strategy for a GCC Rehabilitation Institute**; facilitated a strategy workshop with breakout sessions with the country's healthcare leadership to articulate and align on a vision, mission, key priority areas, KPIs and strategic initiatives. Developed an implementation roadmap using a feasibility-impact matrix for initiative prioritization and SMO office setup
- ♦ **Created workforce optimization strategy for Dutch healthcare provider**; interviewed 15+ employees (incl. on-the-ground staff) and patients to identify social and technological innovations to address 40% workforce reduction challenges
- ♦ **Delivered 11% cost optimization for Dutch elderly care provider**; performed SQL-based financial benchmarking against 10+ elderly care providers leading to departmental budget optimization, presented value chain optimizations to board-level leadership

HSBC

Equity Derivatives Trading Working Student

Düsseldorf, Germany

Nov 2018 – Aug 2019

- ♦ **Optimized trading back-testing framework performance by >99%**; rewrote Python business logic into T-SQL, reducing runtime from 10 hours to 4 minutes and enabling near real-time execution of a strategy based on competitors' mispricing of warrants
- ♦ **Streamlined the regulatory compliance process by creating a volatility surface interpolation tool** for non-traditional warrant strikes; led development of the visual tool, removing the need for manual explanations to secure risk department approvals

Accenture

Data Science Intern

Heerlen, Netherlands

Jul 2017 – Sept 2017

- ♦ **Authored internal report on machine learning applications**; demonstrated the business value of advanced analytics, supported by developing a convolutional neural network for image classification using TensorFlow and Keras

EDUCATION

Maastricht University

B.Sc. Econometrics and Operations Research, graduated with distinction

Maastricht, Netherlands
